SUMMARY

I am an Information Science Engineering student with a strong background in Java, web development, and database management. I seek to utilize my technical skills in a technology-driven company and contribute my leadership and communication abilities to dynamic teams.

EDUCATION

B.E. in Information Science Engineering

Gogte Institute of Technology, Belgaum (2022–2026)

CGPA: 7.32/10

Senior Secondary (XII), Science

Vivekanand College, Kolhapur, Maharashtra (2020–2022)

Percentage: 65.83%

Secondary (X)

Usharaje High School, Kolhapur, Maharashtra (2020)

Percentage: 91.80%

TECHNICAL SKILLS

- **Programming Languages:** Java, SQL
- **Web Development :** HTML5, CSS, React.js, JavaScript
- **Databases:** MySQL
- **Concepts:** Data Structures & Algorithms (DSA)

LANGUAGES

English | Hindi | Marathi

EXPERIENCE

Web Development Intern

Codesoft | Oct 2023 – Nov 2023

Built a personal portfolio website using HTML5, CSS, and JavaScript

Showcased projects, achievements, and resume to 100+ users online.

SOFT SKILLS

- Leadership & Teamwork
- Time Management
- Critical Thinking
- Strategic Planning

PROJECTS

Uni Journey

2025-2026

Personalized Student Database System

- Engineered a Spring Boot web app with Thymeleaf, Hibernate, MySQL, and Docker. Enabled QR-based certificate verification using Apache Tomcat.
- Deployment through Apache Tomcat and Docker, creating a scalable, secure, university-integrated platform.

Scalable Feedback System

2025-2026

Scalable feedback system built using Java, MongoDB, and Docker.

- Built and deployed RESTful API microservices using Java, MongoDB, Docker Compose, and Docker Swarm, with support for container orchestration and horizontal scaling.

Hand Gesture Control

2024-2025

A Gesture Control project with MediaPipe and PySerial

- Developed a gesture-controlled LED system using Arduino UNO, Python, MediaPipe, and PySerial for real-time, touchless control via webcam-based finger detection.

Automated Receipt Processing Tool

2024-2025

An Automated Receipt Processing Tool using AWS Lambda

- Developed a serverless receipt processing tool using **AWS Lambda**, **S3**, and **Textract** for OCR-based extraction, with **DynamoDB** for storage and SNS for real-time notifications.
- Processed **100+** receipts using **AWS Textract** for data extraction and automated storage.

ACHIEVEMENTS

- **HackToFuture** (Hackathon): Qualified – (2025)
- **Avalanche** (Hackathon): Runner-up – (2024)
- **Tantradnya** (Tech Fest): Winner – (2023)

CERTIFICATIONS

- Introduction to IoT (Internet of Things) – **NPTEL (IIT Certified), 2023**
- Cloud Computing – **NPTEL (IIT Certified), 2024**
